# How to Use This Planner

इस प्लानर का उपयोग कैसे करें

start here

Name / नाम: _____ Date / दिनांक: _____

1. Pick your child's age plan below (3–4, 5–6 or 7–8). If your child is in between, start with the younger plan — confidence first!

2. Each week has 5 short study days (15–20 minutes). Print only that week's worksheets — it saves paper and keeps it fresh.

3. Tick ✓ each day when done. After 5 ticks, your child earns a sticker on the reward chart.

4. Weekends are for the fun activity — no worksheets! Real-life play builds the same skills.

5. ★ items use the Sundar Likhawat Handwriting Pack. Don't have it? Just copy 5 words neatly in any notebook instead.

6. When a stream finishes early, the plan repeats earlier pages as revision — repetition is how children master skills.

7. Missed a day? No problem. Just continue from where you stopped — the plan is a guide, not a race.

Hindi summary: अपने बच्चे की उम्र का प्लान चुनें। रोज़ 15–20 मिनट, हफ़्ते में 5 दिन। हर दिन ✓ लगाएँ, 5 ✓ पर एक स्टिकर। शनिवार-रविवार सिर्फ़ मज़ेदार गतिविधि!
